Comments of the Planning application as detailed above.

At the Norfolk County Councillor for Hellesdon, and being fully aware of the traffic implications as present from rat running and HGVs using routes through Hellesdon, I fully support the application as do many of my Hellesdon residents. It is long overdue and well supported.

I have always remained concerned about the emergency response times, particularly ambulance response and the protracted highways routes to the A/E departments at the NNUCH. Therefore any road journey that reduces journey times will have tangible benefits for a success treatment and give a better chance to the patient. Furthermore this link will benefit residents who wish to access the A11 for journeys southwards towards London and Cambridge and better accessibility for those who travel south of Norwich for daily work.

It will also provide a much needed transport route and prevent the need for large transportation vehicles and HGV's having to come as far as the Dereham Road/Sweetbriar roundabout and use the ring road to access the Fakenham and Cromer Roads. This will take a lot of larger vehicles out of Hellesdon too. The building of this road is long overdue and troubled with environmental issues that NCC have done due diligence on and over come. This will join with the rest of the NDR and be an asset to the Norwich Road infrastructure.

Shelagh Gurney.
Councillor Shelagh Gurney
Division: Hellesdon
Deputy Cabinet Member for Adult Social Care
