1	Introduction	3
---	--------------------	---

1 Introduction

1.1.1 This interim report details the survey methods and results of bat trapping and radio-tracking surveys completed in 2019. These surveys were part of a suite of bat surveys conducted with the aim of understanding bat roosting and activity in the local area, and therefore this report should be read in conjunction with the 2019 Interim Bat Survey Report, which provides a detailed background to the scheme (WSP UK Ltd, 2020). This is an interim report and further surveys will be undertaken in 2020 to ensure a comprehensive and robust baseline to inform the Scheme.

1.1.2 We have included a summary of key information shown in this document in an accessible format. However, some users may not be able to access all technical details. If you require this document in a more accessible format please contact norwichwesternlink@norfolk.gov.uk.
