**Subject:** Registration as Objector - Norwich Western Link

WARNING: External email, think before you click!

Hi there,

I'm writing in response to your email dated August 20th 2024.

Please consider this email as an official request for GLASS-UK to become a formal consultee on this project going forward. We are an organisation representing members across the UK to further the preservation of green lanes, green laning, and to ensure the continued existence of unsealed roads.

Our registered address is:  
Green Lane Association  
PO Box 107  
Brecon  
Powys  
LD3 3DG

Our initial objection to the plans for the Norwich Western Link are as follows:

We are deeply concerned about the loss of vehicular access along Blackbreck Lane, which has been determined on the basis of an insufficient survey of traffic along the lane. This route is a key part of the wider network of green lanes in Norfolk, used by members of the Green Lane Association and the wider public. The proposals to replace the lane (which currently has equivalent rights to a Byway Open to All Traffic) with a bridleway is tantamount to a loss of public access to the countryside. The removal of vehicular and horse-drawn carriage rights along this route will have a significant impact on the access that the less able have to the countryside.

Please could this be recorded and backdated to the date it was added to your consultation portal.

If you need more information please don't hesitate to get in touch.

Many thanks,
